## ABOUT ME

Computer Science undergraduate with hands-on experience in full-stack software development, building responsive web applications using React, Next.js, Node.js, and Spring Boot. Skilled in frontend development, REST API integration, authentication, database-driven applications, and software engineering practices, with additional experience in machine learning and AI-powered applications.

## EXPERIENCE

### Full-Stack Developer Intern

Sep 2025 – Present

Cloud99X

Sri Lanka

- Contributed to 5 client web projects using Next.js, React, Tailwind CSS, Sanity, and reusable component-based architecture, developing multiple responsive pages and features.
- Worked with Sanity backend and content management to support dynamic website content and frontend integration.
- Built and optimized responsive interfaces for desktop, tablet, and mobile devices, improving usability and overall user experience across different screen sizes.
- Implemented and integrated approximately 5 web features and services, including Google Maps, contact-form email handling, Nodemailer, and Vercel Web Analytics.
- Identified and resolved frontend performance issues, including image-loading problems in CoSpaces, improving page performance and user experience.
- Contributed to a large-scale CoSpaces event by supporting website implementation, frontend functionality, and technical delivery for the live event experience.
- Contributed to 2 live client websites and collaborated within a 4-member development team using Git, GitHub, branches, pull requests, code reviews, ClickUp, and Agile workflows.

## SKILLS

**Programming Languages** : Java, Python, JavaScript, TypeScript

**Frontend** : React.js, Next.js, HTML, CSS, Tailwind CSS

**Backend** : Spring Boot, Node.js, REST APIs, JWT Authentication

**Database** : MySQL

**Version Control & DevOps** : Git, GitHub, Docker, CI/CD, Linux, Vercel

**Software Engineering** : Object-Oriented Programming (OOP), Data Structures & Algorithms, API Integration, Debugging, Secure Coding, Responsive Web Design, Agile Methodologies

**Machine Learning** : Supervised Learning, Unsupervised Learning, Artificial Neural Networks (ANN), Convolutional Neural Networks (CNN)

## PROJECTS

### Stress Detection System (Perfect Mind) | React.js, Flask, Python, TensorFlow, MySQL, JWT

2025

- Developed a full-stack AI-powered stress-detection application using React.js, Flask, and MySQL, achieving 90.8% test accuracy for the CNN model.
- Combined facial-expression analysis with voice-based sentiment analysis and an AI wellness interview using speech recognition, Google Gemini, and NLP.
- Designed secure REST APIs with JWT authentication and interactive dashboards for tracking stress history.

- Developed an AI-powered application for English and Sinhala Braille communication, improving accessibility for visually impaired users.
- Integrated Text-to-Braille, Braille-to-Text, OCR, OBR, speech recognition, and Text-to-Speech technologies for bidirectional communication.

**Real-Time Event Ticketing System** | *Spring Boot, React, MySQL, JWT, REST API, Tailwind CSS* **Nov 2024 – Dec 2024**

- Built a real-time event booking platform with React, Spring Boot, MySQL, and RESTful services for browsing events and managing reservations.
- Implemented JWT-based authentication and a responsive Tailwind CSS interface.

## EDUCATION

**Informatics Institute of Technology (Affiliated with the University of Westminster)**  
*BSc (Hons) in Computer Science*

**Expected Graduation: 2027**

**2024 – Present**  
*Colombo, Sri Lanka*

**IJSE – Institute of Software Engineering**  
*Diploma in Comprehensive Master Java Developer*

**2024**  
*Sri Lanka*

**BD/Uva Science College**  
*GCE Advanced Level – Physical Science Stream*

**2019 – 2022**  
*Sri Lanka*

## CERTIFICATIONS

**Comprehensive Master Java Development Certificate** – IJSE Institute  
**Postman API Fundamentals Student Expert** – Postman  
**Java Object-Oriented Programming** – LinkedIn

## ACHIEVEMENTS

**Hult Prize 2025 Finals – On-Campus Program**  
Presented *BrailleMate* in a global innovation challenge focused on accessibility and inclusion.  
**UOW Problem-Solving International Hackathon 2025**  
Participated in an international-level hackathon organized by the University of Westminster.
